

Pietro Cornini

Director & Producer

I am a junior director and producer based in Milan. Started in 2018 as an editor and assistant director on small web series. I studied at the New York Film Academy in Los Angeles, where I worked as a PA on large-scale productions, learning the job.

I mainly work in the Assistant Director department and as a Unit Production Manager, handling set operations, coordinating departments, managing high-profile cast, logistics, and locations. I am highly versatile on set, with strong problem-solving skills and a team-oriented mindset. I aim to continue growing as an Assistant Director in the film industry, hoping to assist and work with experienced professional ADs from whom I can learn.

I have worked internationally between Italy and the United States on over 35 productions, including TV, commercials, feature films and short films. I directed branded content and commercial campaigns for international clients such as Evian, Carlsberg, and E80 Group, showcased at major trade fairs like Drinktec and Interpack, reaching over 1 million views across digital platforms.
